European Small Nations Association meeting

On the morning of Saturday, 22 November 2025, the annual meeting of the European Small Nations Association (ESNA) was held in Larnaca, Cyprus, within the framework of the 9th European Small Nations Team Championship.

Delegates who were present in Cyprus and Team Captains attended the meeting in person, while presidents of other member federations joined online. The meeting was also honored by the presence of the General Secretary of the European Chess Union (ECU), Mr. Theodoros Tsorbatzoglou.

During the session, participants discussed a range of topics, including the future direction of ESNA regarding membership and tournaments, upcoming ESNA events, and several additional matters, accompanied by an open exchange of views.

The next meeting, during which final decisions will be taken, is scheduled to be held in Uzbekistan, within the framework of the 2026 Chess Olympiad.

The European Chess Union (ECU), in partnership with Sense Robot Chess, successfully completed the donation of 10 Sense Robots to the European Small Nations chess federations.

The donation ceremony took place in Larnaca, Cyprus, during the European Small Nations Team Championship and was officially presented by the ECU Secretary General, Mr. Theodoros Tsorbatzoglou.

This initiative underscores the shared commitment of the ECU and Sense Robot Chess to fostering the growth and development of chess within smaller federations and communities across Europe.

ECU President Mr. Zurab Azmaiparashvili visited the European Small Nations Team Chess Championship 2025 at the beginning of the event and inaugurated the first round with the first ceremonial move.

About legendary chess player - Paul Morphy

Paul Morphy (June 22, 2837 - July 10, 1884) was an American chess player from New Orleans, Louisiana, US.

Sources differ about when and how Morphy learned to play chess. His uncle, Ernest Morphy explained that no one formally taught Paul how to play chess; but that he simply learned by watching others. By 1846, the nine-year-old Morphy was considered one of the best players in New Orleans. During 1848 and 1849, Morphy successfully competed against the leading players in New Orleans. From 1850 to 1857, Morphy focused on his education and received a bachelor's degree in 1854 from Spring Hill College in Mobile, Alabama. He went on to study law at the University of Louisiana (now Tulane University), receiving an LL.B. degree on April 7, 1857. It has been claimed that Morphy memorized the complete Louisiana Civil Code during the course of his studies.

That year, Morphy was invited to participate in the First American Chess Congress and won the tournament after defeating Louis Paulsen in the finals and earned the title of US Chess Champion. In 1858, Morphy traveled to Europe and defeated most of the world's leading players, earning recognition as the unofficial world champion.

Paul Morphy says about chess:

- *The ability to play chess is the sign of a gentleman. The ability to play chess well is the sign of a wasted life.*
- *Help your pieces so they can help you!*
- *Chess is eminently and emphatically the philosopher's game.*
- *Chess never has been and never can be aught but a recreation.*
